

**The Fair Sex.**  
Bangles are rattling on everything. Head bands of garnet stones are new and fashionable. Half-moon shape (gold) lockets is one of the new styles. Kid gloves are now made to lace to the elbow, same buttons. The full Court train is revived in all its glory for evening dress. The "halo" bonnet seems generally decided upon for the winter. The front of the long overskirt is now trimmed with large bows on either side. Many of the handsomest velvet basques are trimmed with imitation chinchilla fur. Ladies just returned from Rome wear a string of jet called the Vatican necklace. The Chicago belles, it is said, are betting that General Sheridan will be married within a year. Cloth shoes tipped with leather are much worn. They have extended soles and moderately high English heels. The Empress of Russia intends sojourning some time at the town of San Remo, on the coast of the Mediterranean. Cloth polonaises are trimmed with heavy ball fringe, and have an arrangement at the back something like a gray. Gray felt Continental hats trimmed with gray feather trimming increase in popularity among young ladies. Shopping gloves for ladies are of the best quality of dog skin, with gauntlets, in which is a pocket for small change, &c. Vienna fancy goods, imported for the holidays, are very beautiful, most of the patterns and designs being entirely new. The plaid fashion seems destined to be overdone. Every girl of the period has a Scotch or Irish suit for street wear. Striped costumes are much in favor. Those of cloth or velvet, striped with satin gros grain, are considered the handsomest. Among children, this season, brown is unquestionably the most fashionable color. Everything is seal brown except the dress. An effort is being made to revive the fashion of small curls at the back of the feminine head where the chignon used to be. Excellent calico dress material sells at the leading dry goods stores in New York at the unprecedentedly low price of six cents per yard. Many of the light colored silk evening dresses en train have the front breadth of the skirt and the sleeves quilted in the old style. Small square blocks of garnet are now worn as ear-rings, the block being with Roman gold. The style is unique and pretty. Standing linen collars are the rule for house and street dress. The collars are of four or five ply, and are broken in front just a trifle. Ladies' hats are trimmed considerably with feather trimming, especially those jaunty three-cornered affairs of grey felt, now so fashionable. Velvet and cloth muffs will prevail this winter, as last, instead of the fur. Velvet muffs have large bows of black satin ribbon on either side. Brocade is in fashion again, although confined almost exclusively to married ladies. Some of the patterns, especially those imported, are very elegant. All brides (except those who paint and powder) are discarding the long tulle veil, and wearing a shorter one instead, that comes only to the breast. India rubber bustles have been introduced. They can be inflated to suit the taste of the wearer. It is to be presumed they will also serve as the preservers. A boy coasting in Brattleboro came up behind a lady, and took her feet out from under her in such a way that she sat down on the sled, and was carried to the foot of the hill. It isn't the fashion to have your parlor lace curtains cut in the square any more. They must hang in one straight piece so as to display the rich quality and handsome pattern. Empress cloths are more or less fashionable. It is a strong, durable kind of material, and makes a comfortable and also handsome costume for the winter months. Spanish net lace has had its day. It is no longer used for neck scarfs, save by servant girls, who come in for a share of the goods discarded by their mistresses every now and then. A lady, evidently a stranger, promenaded Fifth avenue the other day, wearing a dress that trailed a yard, at least. The police held a hurried consultation, and decided to send her to the insane asylum at the slightest provocation. An energetic lady in Olweine, Iowa, laments her inability to vote. "Why, if I were a man, she said, recently, 'I'd go to the polls if I had to be laid on a feather bed, placed on a stone boat and hauled by a blind ox with one leg broken, but I'd vote! But what's the use of talking? Men are men when they ain't swine, and can't be driven.'"

TO Chauncey Atkinson, of Clay county, State of Missouri, John C. Atkinson, of State of Missouri, county unknown, and Jasper Atkinson, of Polk county, State of Nebraska. You are hereby notified that David Smith and Caroline Smith, on the 28th day of November, 1874, filed their petition in the Court of Common Pleas, in and for Gallia county, and State of Ohio, against you, with others, setting forth that the said plaintiffs are each seized in fee of and have a legal right to one undivided ninth part each of the following described real estate, viz: The southwest quarter and the southeast quarter of the northwest quarter of section No. 30, and forty acres, more or less, in section No. 35, and said last tract bounded on north by north line of said section on the west by lands owned by M. D. J. Hickerson, formerly owned by the heirs of Lucy Woodruff, and south and east by Little Raccoon Creek, all in T. 7, R. 16, Gallia county, Ohio. That Maria Atkinson is entitled to dower therein. That you, Martin E. Shauer, Mary Steel, Duty Atkinson and Homer Atkinson are tenants in common with said plaintiffs of said real estate, each seized of one ninth part. That the estate of said Chauncey Atkinson and Jasper Atkinson is subject to advances made to them by their father, John Atkinson, in his life time, of \$1,200.00 to each. That Mary E. Tyler, one of said defendants, claims to hold a lien on the interest of said Chauncey Atkinson, in said estate, by virtue of an attachment thereon and judgment against said Atkinson. Said petition prays for assignment of dower to said Maria Atkinson for partition of said premises among all of said parties so seized—that in the division and distribution of said estate and in equalizing the same among the said parties, the advances made as aforesaid may be taken into the account. That the interest of said Mary E. Tyler may be settled and all other orders and judgments made as the nature of the case and the legal rights of the parties may require. You are required to answer said petition on or before January 30, 1875.

**Bankrupt Sale.**  
**VALUABLE MANUFACTURING PROPERTY.**  
BY VIRTUE of an order of sale to me issued by the Circuit Court of the United States for the Southern District of Ohio, in the case of Samuel A. Nash, Assignee, &c., vs. Francis L. & James A. LeClercq and others, No. 1895, I will offer for sale on  
Tuesday, the 5th day of January, A. D. 1875,  
at 11 o'clock in the forenoon, on the premises, the following described real estate and property, viz:  
That tract and parcel of property consisting of lots in the city of Gallipolis, county of Gallia, and State of Ohio, and numbered on the recorded plat of said city, nine (9), ten (10), eleven (11), and south-east half of twelve (12), (except about eight feet off of back or rear end of said lots) and known as the "Union Woolen Mill" property, or LeClercq Brothers, including all the buildings thereon, the fixtures, machinery and other property thereon, and also including a strip of about five feet wide out of four-acre lot number 127, used for draining purposes from said main property. The buildings thereon consist of the main factory, a one-story brick 110 feet by 62 feet, with additions of engine room 45 feet by 32 feet, a dye room 78 feet by 31 feet, a picker room 29 feet by 14 feet, all under one self-supporting roof, metal-covered, with gas fixtures and heating pipes throughout; all necessary wells, water-tanks, pumps, conduits, shaftings, hangings, pulleys, and belting, nearly new and in good order for immediate running, it is believed. In the engine room are one engine, two boilers, blacksmith's forge, &c. In the main manufacturing room are 20 single and 8 double box looms, 2 sets spinning mules, 2 sets cards, picker, waste picker, shearing machine, traverse grinder, and other property and machinery necessary for manufacturing woolen goods, and in the dye-house are all the machinery and furniture necessary for the capacity of the factory. The buildings, fixtures, machinery and other property are all new, having been used only about two years. On the said property are also one two-story frame warehouse 60 feet by 30 feet, nearly new, with office therein; one two-story warehouse 50 feet by 30 feet; a one-story brick dwelling house, two tenements, 64 feet by 28 feet; also, dry-shed, bleach-house and other necessary out-buildings. This manufactory, known as the "Union Woolen Mill," has been in operation for years, and is of established and good reputation. The property was destroyed by fire some four years since, and the present buildings were built entirely new, and the machinery purchased new and of the latest improved kind. Appraised at \$29,132.00.  
Said property will be sold to the highest bidder, but not for less than two-thirds of the appraised value thereof, and upon the terms of one-fourth cash on day of sale, and the balance in six, twelve and eighteen months from day of sale; the deferred payments to bear interest at the rate of seven per cent. per annum and to be secured by mortgage on the premises sold. Said real estate will be sold free of all incumbrances thereon, except taxes due after the 20th of December, A. D. 1874.  
Should there be no bidders for said property entire, as above described, under said terms of sale, the said Assignee will, at said time and place and upon the same terms of sale, offer for sale separately, so much of said real estate as is included within the following boundaries, to-wit: Commencing at a point in the front line of said lot No. 3, on Vine street, sixty-five (65) feet, being the corner of said lot at the intersection of Third and Vine streets; thence running back at right angles with said Vine street to the back line of said "Woolen Mill" property, being 166 feet, more or less; thence along the rear line of said property in a northerly direction to a point in said rear line, being the corner of the back line of said lot number eleven (11); thence at right angles with said rear line to Vine street dividing said lot 11 into two equal parts; thence along the front line of said property towards Third street to the place of beginning; including all of said lot No. 10, southeast half of said lot No. 11, and No. 9 except 65 feet off of the southeast side thereof, with said strip of about five feet wide through four-acre lot No. 127. The said buildings and buildings with their additions, with all fixtures, machinery, &c., as above described are situated on and appraised with said described tract. Should said last described tract be bid off and sold at said sale, then the said assignee will, at the same time and place, and upon the same terms, offer for sale the balance of said first described tract in separate parcels, as follows: That part of said lot number 9, described as commencing at the south corner of said lot, intersection of Third and Vine streets; thence along the line of said lot up Third street to the lower front corner of the warehouse on said lot, being 90 feet, more or less; thence at a right angle with said Third street back 65 feet; thence at a right angle with said last line to the rear line of said lot on Vine street; thence to beginning corner, presenting a front on Vine street of 65 feet, and on Third street of 90 feet, more or less, with the brick dwelling-house thereon. Appraised at \$12,800.00.  
ALSO, that part of said lot number 9, commencing on line of said lot on Third street at upper east corner of said parcel; thence running up Third street to within twelve feet of the upper line of said Woolen Mill property, being 64 feet, more or less; thence at a right angle with Third street back 65 feet; thence at a right angle with said last line down to the upper north corner of said last above parcel; from thence at a right angle along the upper line of said last tract to place of beginning, with the right to use as appurtenant to the same. In connection with the tract on which the main factory is situated, an alley 12 feet wide between said last tract and upper line of said Woolen Mill property, being a front on Third street of 64 feet, more or less, running back 65 feet, with privilege of said alley, with warehouse thereon. Appraised at \$1,800.00.  
ALSO, the southeast half of lot number 12, appraised at \$700.00.  
Should said first principal tract sell at said sale, and the balance as above subdivided fall to find bidders, then said balance will be divided in smaller subdivisions, the plan and appraisements of which can be seen at the office of the Assignee in Gallipolis, and which will be exhibited and explained on the day of sale.
